

12V 24V Soft Light Strip 120 Beads Led Strip Self-Adhesive Linear Light for Cabinet

Our Product Introduction

Basic Information

- Place of Origin: SHENZHEN CHINA
- Brand Name: YSENLED
- Certification: CE ROHS LVD EMS
- Model Number: YS-R60X2835RA-F3
- Minimum Order Quantity: 10
- Price: Negotiable
- Packaging Details: 10*1000*10
- Delivery Time: 2DAYS
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100,000 meters per week

Product Specification

- Color: Cool White/Warm White
- CCT: 6000-6500/2800-3000
- LED Qty: 600pcs/ Roll
- Voltage: DC24V
- Power/roll: 96W/roll
- Size: 10*5000M M/roll
- Lumen Per LED: 22-24LM/CRI:83/81
- Highlight: **120 Beads Led Strip, 12V 24V Soft Light Strip, Cabinet Led Strip**

Product Description

Product details about "2835 low voltage 12V 24V soft light strip 120 beads cabinet light SMD light strip led strip self-adhesive linear light":

1. Basic product information

Model: 2835 LED soft light strip

Voltage: Support 12V and 24V low voltage

Number of LED lamp beads: 120 beads per meter

Use: Commonly used for indoor lighting decoration such as cabinet lights and wardrobe lights

Type: SMD light strip, self-adhesive linear light

Suitable For Various Scenarios

Can be used for ceilings various decorative lighting needs

2. Product features

Low voltage safety: Adopting 12V or 24V low voltage design, it is safer to use and reduces the risk of electric shock.

High brightness and energy saving: 2835 LED lamp beads have high light efficiency, low energy consumption, high brightness and long service life.

Self-adhesiveness: With self-adhesive glue on the back, it is easy to install and can be directly pasted in the desired position.

Linear design: The linear design makes the light distribution even and the lighting effect better.

SMD technology: Adopting SMD (Surface Mounted Devices) technology, the lamp beads are small in size, good in heat dissipation and stable in light emission.

3. Specifications

LED lamp bead model: 2835

Working voltage: DC12V or DC24V

Power: Depends on the specific product, but generally more energy-efficient

Color temperature: Different color temperatures can be selected according to needs, such as warm light, neutral light, cold light, etc.

Size: The length can be customized according to needs. Generally, the products sold on the market are rolled in meters

FPC width: Common ones are 5mm, 8mm, 10mm, etc. The specific width depends on the product model

4. Application scenarios

This type of product is widely used in home decoration, commercial display, hotel decoration and other fields. It is particularly suitable for cabinets, wardrobes, wine cabinets and other spaces that require local lighting. Its soft light can create a warm and comfortable atmosphere while enhancing the sense of hierarchy of the space.

Scenario Shows

Commercial Space

5. Precautions

Before installation, please make sure the power is turned off to avoid the risk of electric shock.

During installation, please follow the product manual to ensure correct installation.

Do not bend the light strip excessively to avoid damaging the internal circuit.

If you need to cut the light strip, please cut it according to the specified cutting points and keep the cut port flat.

During use, please keep the surface of the light strip clean to avoid dust and oil that affect its luminous effect.

6. Purchase suggestions

When purchasing, it is recommended to choose regular channels and brand products (such as YSENLED) to ensure product quality and after-sales service. At the same time, you can choose the appropriate model and specifications according to your actual needs and budget. In addition, you can also pay attention to the user reviews and usage experience of the product to make a more informed purchase decision.
