

Waterproof Sensor Light Strips for Embedded Wine Cabinets Wardrobes and Bookcases

Our Product Introduction

Basic Information

- Place of Origin: SHENZHEN CHINA
- Brand Name: YSENLED
- Certification: CE ROHS LVD EMS
- Model Number: YS-BAPL067-F
- Minimum Order Quantity: 10
- Price: Negotiable
- Packaging Details: 10*1000*20
- Delivery Time: 2DAYS
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100,000 meters per week

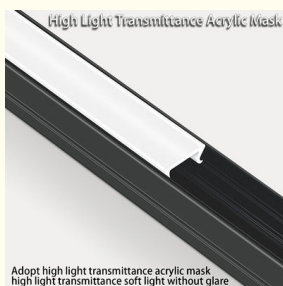

Product Specification

- Certifications: CE, RoHS
- Fixture Feature: Adjustable Brightness
- Led Type: SMD 5050
- Fire Resistant: Yes
- Customized: Yes, Available
- Quantity: 5m/roll
- Light Source: LED
- Led Quantity: 60pcs /m
- Outer Cover: Food Silicon
- Sample: Yes
- Highest Lumen: 18-20lum/W (white Color).
- Power Source: USB
- Input Power: 5V
- Operation Temperature: -10 ~40
- Waterproof: IP68

Product Description

Embedded LED wine cabinet light strips, wardrobe sensor light strips, cabinet shoe cabinet bookcase light shelf lights and cabinet cabinet lights are the preferred products for modern home lighting and decoration. The following is a detailed description of these products:

Product Overview

These LED light strips and light strips are designed for home storage spaces (such as wine cabinets, wardrobes, cabinets, shoe cabinets, bookcases, etc.). They are embedded in the installation method, which not only saves space, but also achieves uniform and soft lighting effects, and improves the overall beauty and practicality of the home environment.

Main Features

Embedded design: light strips and light strips can be embedded in the cabinet without taking up extra space, achieving invisible lighting effects, making the items in the cabinet more visible.

Intelligent induction: Some products are equipped with human body induction function, which automatically lights up when someone approaches and automatically turns off after leaving, which is convenient and energy-saving.

LED light source: LED is used as the light source, which has the advantages of high efficiency and energy saving, long life (up to 100,000 hours or more), low heat generation, environmental protection and mercury-free.

Customized size: Supports customized length according to needs, up to several meters, to meet the lighting needs of cabinets of different sizes.

Anti-glare design: Through special optical design, glare is reduced to provide a more comfortable lighting experience.

High-quality materials: The shell is mostly made of high-quality aluminum, with good heat dissipation performance to ensure stable operation of the lamp.

Diverse color temperatures: Provide a variety of color temperature options (such as 3000K-6000K), and the light atmosphere can be adjusted according to different scenes and personal preferences.

Convenient installation: Some products support slot-free installation, and are fixed to the cabinet by pasting or magnetic suction, and the installation process is simple and quick.

Application scenarios

Wine cabinet: Embedded LED light strips can highlight the display of wine and create a high-end and elegant wine tasting atmosphere.

Wardrobe: The induction light strip automatically lights up when the wardrobe is opened, making it easier to find clothes and adding a sense of warmth.

Cabinets: Provide soft lighting for kitchen cabinets, reduce shadows, and improve the convenience of cooking and preparing meals.

Shoe cabinets: Install LED light strips inside the shoe cabinet to make shoes easier to find, while keeping the interior of the shoe cabinet clean and beautiful.

Bookcases: Provide uniform lighting for bookcases, protect eyesight, and enhance the display effect of books.

Notes

Before installation, please make sure the power is turned off and install according to the product manual.

Avoid using in humid or high temperature environments to avoid affecting the life of the lamp.

Clean the surface of the lamp regularly to keep it bright as new.

If you need customized size or special functions, please contact the merchant in advance for confirmation.

In short, embedded LED wine cabinet light strips, wardrobe sensor light strips and other products have become an ideal choice for modern home lighting and decoration with their unique design and excellent performance.
