- Model Number: YS-R120X2835RAF3
- Minimum Order Quantity: 10
- Price: Negotiable
- Packaging Details: 10*1000*20
- Delivery Time: 2DAYS
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100,000 meters per week

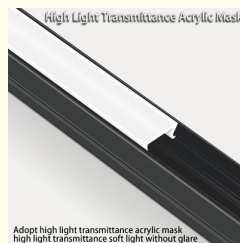

Product Specification

- Meter Per Reel: 5meters, 10meters, 50meters
- Color Temp: RGB
- Materials: Food Silicon
- Warrant: 1year
- Item Type: Light Strips
- Leds: SMD2835
- Input Voltage: DC 12V
- Customized: Yes, Available
- Waterproof Type: IP65
- Fixture Feature: Adjustable Brightness
- Is It Waterproof: Yes
- Outer Covering: Food Grade Silicons
- Ic Type: 2811
- Lumen Per Led: 22-24LM/CRI:83/81
- Hs Code: 9405409000

Product Description

Linear light embedded black LED gypsum ceiling light trough living room corner aluminum profile slot product is a home decoration product that combines modern decoration and lighting

Our Product

technology. The following is a detailed introduction to the product:

1. Product Overview

Product Name: Linear Light Embedded Black LED Gypsum Ceiling Light Trough Living Room Corner Aluminum Profile Slot

Product Features: This product consists of LED linear lights, black aluminum profile slots, gypsum ceiling materials, and living room corner processing components. It is designed for modern home decoration and aims to create a refined and fashionable space atmosphere while providing efficient and uniform lighting effects.

2. Product Composition and Material

LED Linear Light: It adopts high-quality LED light source with the characteristics of energy saving, environmental protection, and long life. The

LED lamp beads are evenly distributed on the light strip, and the color temperature and brightness can be adjusted as needed to meet the lighting needs of different scenes.

Black Aluminum Profile Slot: The slot is made of black aluminum profile, which is corrosion-resistant, easy to clean, beautiful and generous. The slot is reasonably designed, easy to install and maintain, and can well hide the LED linear lights, making the overall decorative effect more unified and harmonious.

Gypsum ceiling material: The ceiling is made of gypsum board material, which has good sound insulation, heat insulation, fire resistance and other properties. The surface of the gypsum board is smooth and flat, which is easy to match with various decorative materials to enhance the overall texture of the home.

Living room corner processing components: Special treatment is carried out for the corners of the living room, and aluminum profiles or gypsum boards and other materials are used for edge treatment to make the corner lines smoother and more natural, avoiding safety hazards.

3. Product advantages

Beautiful and generous: The black aluminum profile slot is perfectly integrated with the gypsum ceiling, and the lines are simple and smooth, which enhances the overall beauty of the home.

Good lighting effect: LED line lights provide uniform and soft lighting effects, and the color temperature and brightness can be adjusted as needed to meet the lighting needs of different scenes.

Convenient installation: The slot design is reasonable, the installation process is simple and fast, and the installation can be completed without complex tools and professionals.

Convenient maintenance: LED line lights have a long service life and a low failure rate, and the maintenance cost is low. At the same time, the slot design facilitates the removal and replacement of LED line lights.

Strong applicability: This product is suitable for various modern home decoration styles, such as simple style, Nordic style, modern style, etc. At the same time, it can be customized according to actual needs to meet the personalized needs of different customers.

Various Styles Available

4. Usage scenarios

This product is widely used in the decoration and lighting of home spaces such as living rooms, bedrooms, and dining rooms. Especially in the living room, through clever layout and design, a warm, comfortable, stylish and generous atmosphere can be created. At the same time, this product is also suitable for the decoration and lighting of commercial spaces such as hotels, restaurants, cafes and other places.

5. Precautions

Before installation, please make sure that the power is turned off and the power plug is disconnected to prevent the risk of electric shock.

Please follow the installation steps in the product manual to avoid damage to the product or cause safety hazards.

Please keep the surface of the product clean and dry to prevent corrosion and damage.

If you need to replace the LED linear light or perform other maintenance operations, be sure to turn off the power first and follow the operating steps in the product manual.

In summary, the linear light embedded black LED gypsum ceiling light trough living room corner aluminum profile card slot product is a home decoration product that integrates beauty, practicality and convenience. It can not only provide efficient and uniform lighting effects for the home space, but also improve the overall aesthetics and living comfort.
